

Pural Farm

General Product Description

The technical properties of Pural Farm have been carefully developed, tested and selected. Thanks to its resistance to corrosion, chemicals and UV radiation as well as its stay-clean properties, Pural Farm is the best possible color coated product for agricultural buildings. Pural Farm is also used in sandwich panels and profiled sheets.

The reverse side of the sheet is painted as standard with a two-layer grey backside coating.

SSAB's color coated products are all manufactured according to EN 10169 + A1.

Technical Properties

Technical Properties	Regular
Gloss	40
Minimum inner bending radius	1 x sheet thickness
Scratch resistance	35N
UV Radiation Resistance	R _{uv} 4
Corrosion Resistance	RC4
Chemical resistance	Excellent
Highest Operating Temperature	100 °C
Coating thickness, nominal	40 µm
Primer	10 µm

Colors

Please find below the standard colors available. Other shades can be agreed upon separately.

Colors	
RR 126- White	x
RR 143- White	x

Standard Reverse Side Coating

Technical Properties	
Nominal Coating Thickness	12 µm
Primer	5 µm
Color	Dark grey
